Allowable Subject Matter

Claims 4-11 and 13-20 are allowed.

Response to Arguments

Applicant's arguments filed 7-28-06 have been fully considered.

With respect to Applicant's statement that the claims should not be finally rejected as the rejection of the prior office action included a new grounds of rejection not previously presented for Applicant's review, the claims were not finally rejected in the prior office action of 5/31/06, as such, Applicant's argument is moot.

Applicant traverses the provisional rejection on the grounds of non-statutory obvious-type double patenting but has reserved presenting the reasoning for traversing the rejection for a later date. However, since the provisional rejection on the grounds of non-statutory obvious-type double patenting is the only rejection that remains in the case, the provisional rejection is hereby withdrawn and the claims are indicated as being allowed.

Applicant also traversed the rejection to claims 1-3 and 12 as being unpatentable over Sato'033 in view of either Sato'728 or JP'441 however since Applicant canceled these claims, the traversal of the rejection is moot.
